COMMENTS:

ADDITIONAL SPECIFICATIONS

- **CONFORMITY:** Material shall conform, in all respects including stenciling, to ASTM/ASME/API 5L (current edition) and the Product Specification Level ("PSL") specified herein.
- **SUITABILITY:** All material shall be suitable for coating with Fusion Bond Epoxy and all other O.D./I.D. common industry coatings. No material will be accepted with O.D./I.D. residue, O.D./I.D. slag, weld splatter, I.D. bar coding labels, or any other foreign agents which may impede O.D./I.D. coating or field use. Remediation at the vendor's expense.
- **BUNDLE TAGGING:** On all bundles (including single piece bundles), aim to use a bright lime green or bright orange bundle tag. The tag must be properly affixed on each end of each bundle (including single piece bundles) and must include Trident Steel's name and the full product description.
- **DAMAGES:** Trident Steel ("TSC") will advise vendor of any observed physical damages to the product within 30 days of receipt of goods. Vendor will be responsible to advise TSC if a marine survey has been authorized and initiated. TSC will require written authorization from vendor for repairs. TSC will not have cold work repairs performed on any item within 4 inches of the weld seam. TSC will accept and repair any material that has body wall imperfections/dents not exceeding 1/8 of 1 inch, predicated upon the O.D. and wall thickness of each item, at the vendor's expense.
